Portfolio: <https://ajmal-6.github.io/Mohammed-Ajmal-N-portfolio/>

PROFESSIONAL SUMMARY

AI and DataScience graduate with expertise in machine learning, deep learning, and computer vision. Proven experience developing AI-driven solutions including self-driving vehicle prototypes and image processing systems. Proficient in Python, Django, TensorFlow, and embedded systems.

EXPERIENCE

AI ENGINEER | CURANOVA . AI

February 2026 – Present

- Contributed to real-world healthcare AI solutions by working with medical datasets and supporting model development and analysis.
- Performed data preprocessing and cleaning using self-developed AI tools, improving data quality and model performance.
- Utilized Google Health models on GCP while securely handling confidential patient data and building scalable data processing workflows.

SSKFellow– STEM Education Initiative | Kerala Startup Mission

June 2025 – January 2026

- Providing STEM education and training to selected students and teachers across Palakkad district.
 - Developing and delivering curriculum on emerging technologies including AI, IoT, and robotics
 - Facilitating hands-on workshops and project-based learning sessions in schools
-

TECHNICAL SKILLS

- Programming:**Python, C, Java, JavaScript, HTML, CSS
 - Web Frameworks:** Django, Flask
 - AI/ML Frameworks:** TensorFlow, PyTorch, Scikit-learn, Keras, OpenCV
 - Tools & Platforms:** Git, GitHub, Raspberry Pi, Jupyter, LaTeX, MS Office, Power BI
 - Data Visualization:** Matplotlib, Seaborn
 - Domains:** Computer Vision, Deep Learning, CNN, Web Development, Embedded Systems
-

PROJECTS

Self-Driving Vehicle Prototype Using Raspberry Pi

- Developed autonomous navigation system using Convolutional Neural Networks for real-time lane detection
- Integrated motor control systems and sensors for obstacle avoidance in controlled environments

Black and White Image Colorization using Deep Learning

- Built and trained CNN model for automatic grayscale image colorization using transfer learning.
 - Implemented perceptual loss functions improving color accuracy by 25% compared to baseline.
-

EDUCATION

B.Tech in Artificial Intelligence and Data Science

2021 – 2025

Royal College of Engineering, Thrissur

INTERNSHIPS

Machine Learning Intern | ATHARVO, Bangalore

September 2024

- Developed and optimized machine learning models for data classification
- Implemented data preprocessing pipelines improving model accuracy by 15%
- Collaborated on computer vision projects using OpenCV and TensorFlow

Full Stack Developer Intern | FSDA, Kozhikode

January 2025

- Built responsive web applications using Django, HTML, CSS, and JavaScript
 - Developed backend APIs and integrated with frontend components
 - Utilized Git and GitHub for version control and collaborative development
-
